Adapts to your busy workday

HP Pro x2 410 PC

Powered by Intel® Core™ Processors

Powered to multitask, the notebook you need becomes the tablet you want. Work using a detachable keyboard and then easily switch to a tablet to stay connected on the go. Powered by Intel® Core™ Processor Family.¹ You can work through your tasks or stay entertained while you are on the go. To learn more go to WWW.ADSNET.COM.

With the HP Pro x2 410 PC you can:

- Effortlessly attach and detach your tablet to and from its keyboard thanks to the durable, mechanical hinge design
- Start working quicker and smoother with Windows 8.1² and the HP solid-state drive
- Keep up with your most demanding tasks with the speed and responsiveness of a 4th generation Intel® Core™ i3/i5 processors¹
- Connect wirelessly to your WiDi ready devices³
- Enjoy always-on self-help built-in support through the life of the PC⁴
- Avoid out-of-pocket repair or replacement costs and get service delivered right to your door with optional HP Care Pack with Accidental Damage Protection⁵

¹ Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

² Not all features are available in all editions of Windows 8.1. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8.1 functionality. See microsoft.com

³ Intel® Wireless Display requires a separate Wireless Display receiver with a USB port and an HDTV or Monitor with HDMI input. High definition (HD) content is required to view high-definition images. WiDi requires one of the two Intel WLAN options. Ralink does not support WiDi on this device.

⁴ HP Support Assistant requires Windows and internet access.

⁵ HP Care Packs are sold separately. Service levels and response times may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. HP Services are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.
